

This topographic map displays a region with various geographical features. A proposed pipeline route is shown as a series of green dots, starting from the top right and extending towards the bottom left. The map includes several roads, with a network of streets shown in a grid pattern on the left side. Water features, including creeks and rivers, are labeled in blue. The map also shows contour lines indicating elevation. Two specific areas are labeled: 'Elko CCD 94266' and 'Wells CCD 94882'. A small inset map in the top left corner provides a broader geographical context, showing the location of the main map area within a larger region.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

The Census Bureau stores primary and alternate road names, but only primary road names are used to label the roads on the BAS maps.

The Census Bureau is working to improve our road data to address inconsistencies in road classification and their resulting symbolization seen on the BAS maps.
